RE: Antidumping duty order in the investigation of drawn stainless steel sinks from the People's Republic of China ("PRC") (A-570-983)

1. On 04/11/2013, Commerce published in the Federal Register its antidumping duty order and amended final determination in the investigation of drawn stainless steel sinks from the PRC (78 FR 21592). This is an amendment of certain instructions in message 3059306 on 02/28/2013.

2. The merchandise covered by the order are drawn stainless steel sinks with single or multiple drawn bowls, with or without drain boards, whether finished or unfinished, regardless of type of finish, gauge, or grade of stainless steel. Mounting clips, fasteners, seals, and sound-deadening pads are also covered by the scope of this order if they are included within the sales price of the drawn stainless steel sinks.

For purposes of this scope definition, the term "drawn" refers to a manufacturing process using metal forming technology to produce a smooth basin with seamless, smooth, and rounded corners. Drawn stainless steel sinks are available in various shapes and configurations and may be described in a number of ways including flush mount, top mount, or undermount (to indicate the attachment relative to the countertop). Stainless steel sinks with multiple drawn bowls that are joined through a welding operation to form one unit are covered by the scope of the order. Drawn stainless steel sinks are covered by the scope of the order whether or not they are sold in conjunction with non-subject accessories such as faucets (whether attached or unattached), strainers, strainer sets, rinsing baskets, bottom grids, or other accessories.

Excluded from the scope of the order are stainless steel sinks with fabricated bowls. Fabricated bowls do not have seamless corners, but rather are made by notching and bending the stainless steel, and then welding and finishing the vertical corners to form the bowls. Stainless steel sinks with fabricated bowls may sometimes be referred to as "zero radius" or "near zero radius" sinks.

The products covered by this order are currently classified in the Harmonized Tariff Schedule of the United States ("HTSUS") under statistical reporting number 7324.10.0000 and 7324.10.00.10. Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope is dispositive.

3. For imports of drawn stainless steel sinks from the PRC, CBP shall suspend liquidation of such shipments entered, or withdrawn from warehouse, for consumption on or after 04/10/2013. Effective 04/11/2013, CBP shall require, for such entries, a cash deposit equal to the margins for the following producer and exporter combinations:
